R2

1080P Full HD Video

Providing a perfect visual presentation

Either on your computers or mobile devices, 1080P full HD video streaming presents real colors of objects, enabling you to view your house more clearly anywhere, anytime.

Ordinary Video

1080P Full HD Video

To enjoy 1080P full HD video on your mobile devices, it's recommended that you use Android 4.1 or iOS 8.1 and above for your mobile devices and hardware with GPU.

Built-in High-end Mic and Chip

Enjoy superior two-way audio quality in anywhere

Built-in high-end mic and chip effectively reduce background noise and create a superior two-way audio continuity—you can hear and be heard clearly with our camera even the background has much noise.

R2

8X Magic
Zoom

**CAPTURE
STUNNING**
DETAILS IN ULTRA HD VIDEO

R2

The cutting-edge technique--8X magic zoom is able to amplify any details of video streaming similar to optical zoom, but with the fixed-focus lens, hence you can identify different faces and check any details of your home.

Low Bit Rate
(LBR)

Sharper and more smooth video

The latest chipset from Ambarella is adopted, which grants high efficient compressing technology and excellent FHD video processing capability. In the case of low bit rate it has better video experience than other chipsets.
